Additional Backup Information

The U.S. Department of Health and Human Services (DHHS), Centers for Disease Control and Prevention (CDC) is allocating federal funds to the City's Health and Human Services Department (HHSD) from the Patient Protection and Affordable Care Act 2010, Public Prevention Health Fund: Community Transformation Grant (CTG). The City has been awarded \$1,026,158 for the Year 2 budget of a 5-year grant program. Funding for Years 3-5 is dependent on the federal budget continuing the prevention-funding program of the Patient Protection and Affordable Care Act and the annual budget submitted by HHSD.

HHSD will utilize the funds to implement the grantor-required strategies to create healthier communities by supporting implementation of interventions in four strategic areas:

- Tobacco-free living
- Active living and healthy eating
- High impact evidence-based clinical and other preventive services
- Healthy and safe physical environment

The approved Community Transformation Implementation Plan (CTIP) addresses the needs of Austin/Travis County with special focus on the populations that experience health disparities. The plan is categorized across multiple sectors addressing where people work, play, learn, live and access social services. These categories are Community, School, Worksite, Healthcare, Media and Disparities.

Using SMART objectives with detailed milestones, measurable outcomes for the Austin/Travis County grant jurisdiction over the 5-year total grant term, attention is directed to achieving health equity, eliminating health disparities and improving the health of all groups. Collaborations and selected grant subrecipients will be used to reach all populations in Austin/Travis County to meet the long-term objectives established by the CDC:

- (1) Reduce death and disability due to tobacco use by 5 percent
- (2) Reduce the rate of obesity through nutrition and physical activity interventions by 5 percent
- (3) Reduce death and disability due to heart disease and stroke by 5 percent

PERFORMANCE

HHSD Related Department Goal: Promote a healthy community by preventing chronic and communicable diseases and promoting improvement in social/economic/environmental factors that will result in an improved overall health status and a reduction of health disparities.

Goal statements and associated milestones have been created and accepted by grantor during Year 1. Activity Planning has been developed and assignments made by interdepartmental agreement(s), RFP for services, and collaborations created by CTG staff with other HHSD departmental units, other city departments and some local food providers and community nonprofits. A sample of activities that may be included and measured by September 2016 community, systems, environment or infrastructure changes in Austin/Travis County include:

- being written into the 30-year comprehensive "Imagine Austin" Plan to achieve a "Healthy City Program"
- promoting protection from secondhand smoke and social norm change, including but not limited to
 - Outdoor public places
 - Multifamily housing
 - Commercial and governmental worksites
 - College, university, technical and trade school educational environments
- promoting breastfeeding and the mother-friendly workplace; increasing availability, identification, affordability and consumption of healthy foods and beverages through promotion of urban farms, community gardens, farmers' markets, and/or farm-to-site programs in Austin/Travis County
- promoting the availability, identification, affordability and consumption of healthy foods and beverages sold/used by mobile vending units, worksites, healthcare facilities, and other organizations that adopt healthy vending policies.
- promoting pedestrian/bicyclist and recreation infrastructure provisions, including but not limited to safety and amenities of existing parks, trails, playgrounds, bike paths, or recreation centers.

- developing and implementing clinical systems and policy and environmental strategies that promote high impact quality clinical preventive services
- developing and implementing strategies to improve self-management of chronic diseases and preventing diabetes
- developing and implementing an education and outreach campaign to promote healthy eating and physical activity and protection from secondhand smoke

Objective accomplishments are reported to the grant Project Officer on a routine basis. An evaluation method, approved by CDC, has been designed for each set of strategy activities for reporting to the grantor, HHSD leadership and other stakeholders and policy makers.
